

# ATP-PRO

## America is Looking for Answers

- People are looking for ways to support a healthy heart
- Individuals want a quality life free from fatigue and discomfort
- High performance sports are a multi-billion industry
- Energy needs are a top reason people purchase nutritional supplements
- Athletes look to safely increase muscle gains & speed recovery
- People with fibromyalgia are looking to find natural nutritional support

## Benefits of Eniva ATP-Pro

**Twenty patents | Enhances energy production and muscle health\***  
**Pharmaceutical and food grade certified materials | Promotes cardiovascular health\*** | **Support for individuals in all walks of life with health goals**

Eniva ATP-Pro® provides your body with a patented form of D-Ribose, a fundamental source of energy your body needs.\* D-Ribose is what your body uses to naturally build its energy stores. Taking Eniva ATP-Pro helps your body replenish energy levels that have been depleted by hard work, exercise or health challenges.\*

## Why is ATP so important:

- ATP (cellular energy) is critically important to the life of every cell.
- Each cell contains a limited supply of ATP needed to perform necessary functions. (Maintain its cell wall integrity, salt balance, energy used by the cell to move electrolytes across the cell membrane, synthesis of important cellular compounds, such as proteins.)
- ATP is needed for growth and repair of damaged or stressed tissue.

It is well known that strenuous work, high-intensity exercise and many health challenges contribute to a depletion of the energy pool leading to fatigue, muscle soreness and stiffness that negatively impact exercise tolerance and quality of life. This concern is universal, all the way from top conditioned athletes, to weekend warriors, to patients needing additional nutritional support. Science has also shown that once reduced, it takes several days for energy levels to return to normal, and in some circumstances, they may never recover without the supplemental help of the D-Ribose.

ID # 11007 **ATP Pro** (5.3oz)

## ATP PRO IS IDEAL FOR:

- Athletes
- High-performance executives
- Busy moms and caretakers
- Those looking to support their heart\*
- People searching for ways to increase their energy levels\*
