

# CELL-READY® MINERALS

## What is Solutomic®?

Plants take solid mineral compounds from the soil and change them into a water-soluble, ionic and cell-ready form. Minerals from the soil are put into a form the human body can use.

Similarly, the Eniva Health has proprietary technology for delivering mineral nutrition to the human body. Eniva's Cell-Ready Minerals supplement is a synergistic blend of energized, bio-available, pure minerals in an ionic, water-soluble, and cell-ready form. This technology has been defined as "Solutomic."

## How Cell-Ready Minerals Work

When the body goes out of balance disease can set it. An excess or deficiency of minerals can create a disruption in healthy body function. It is not simply what is put into the body that affects health, but in what form and in what balance.

Cell-Ready Minerals has been formulated in an appropriate balance for enhanced absorption. It is important to realize that minerals are not static, but interact. These interactions can affect absorption if combined incorrectly with other nutrients and other minerals.

## All-Natural Supplement

The all-natural state of this supplement also makes it unique. Cell-Ready Minerals contains:

- No fructose or sugars
- No artificial colors or flavorings
- No calories or caffeine
- No animal by-products or animal testing

ID # 17005 - Natural Flavors  
ID # 17000 - Unflavored

### Supplement Facts

Serving Size: 2 Fluid Ounces (60 mL)  
Servings Per Container: 16

Amount Per Serving	% Daily Value	
<b>Calcium</b>	200 mg	20%
<b>Phosphorus</b>	100 mg	10%
<b>Iodine</b>	150 mcg	100%
<b>Magnesium</b>	600 mg	150%
<b>Zinc</b>	8 mg	53%
<b>Selenium</b>	70 mcg	100%
<b>Copper</b>	0.8 mg	40%
<b>Manganese</b>	3 mg	150%
<b>Chromium</b>	240 mcg	200%
<b>Potassium</b>	175 mg	5%
<b>Boron</b>	2 mg	*
<b>Sulfur</b>	60 mg	*
<b>Vanadium</b>	10 mcg	*

\*Daily Value not established.

**Other Ingredients:** Purified water, magnesium (from magnesium citrate, and/or magnesium malate, and/or magnesium glycerophosphate, and/or magnesium chloride, and/or magnesium sulfate), malic acid, citric acid, phosphorus (from magnesium glycerophosphate), natural flavor, inulin (from chicory root), potassium (from potassium citrate, and/or potassium chloride), sulfur (from magnesium sulfate, and/or zinc sulfate, and/or copper sulfate, and/or vanadyl sulfate), calcium (from calcium citrate, and/or calcium malate, and/or calcium chloride), sorbic and/or benzoic acid(s) [protect freshness], stevia leaf extract, zinc (from zinc sulfate), boron (from sodium borate), manganese (from manganous chloride), copper (from copper sulfate), chromium (from chromium chloride), iodine (from potassium iodide), selenium (from sodium selenate), vanadium (from vanadyl sulfate).
