

CHOLESTEROL HEALTH

Liquid Plant Phytosterols

Eniva Cholesterol Health is a natural solution to support healthy cholesterol levels through the use of liquid plant phytosterols. **Research has shown that plant phytosterols, structurally similar to cholesterol proactively compete with cholesterol for absorption and thus play a meaningful role in supporting healthy cholesterol levels.**

According to the FDA, "Products containing at least 0.65g per serving of plant sterol esters, taken twice daily with meals for a daily total intake of at least 1.3 g as part of a diet low in saturated fat and cholesterol, may reduce the risk of heart disease."[†]

The National Cholesterol Education Program (NCEP) of the National Heart, Lung and Blood Institute of Health also suggests the use of plant sterols to support cardiovascular health. **The recommended daily dose of 2 ounces of Eniva Cholesterol Health provides 2g of plant sterol esters for maximum cardiovascular benefits while supporting healthy cholesterol levels.***

Benefits of Eniva Cholesterol Health

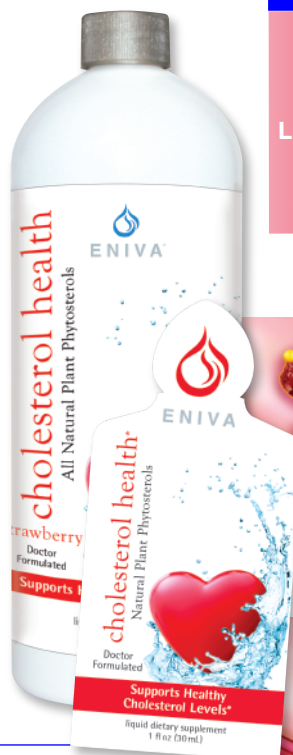

- Helps support healthy total cholesterol levels*
- Phytosterols help limit LDL cholesterol in your diet from being absorbed.*

Eniva Cholesterol Health works safely in the digestive tract.

Cholesterol fat from food is normally absorbed in the digestive tract.

Eniva® Cholesterol Health works by naturally limiting the cholesterol and fat absorbed from food. It allows absorption of beneficial nutrients, while unhealthy fats are passed safely from the body.*
