

# DIGEST-EZ®

## For Digestive Health\*

Enzymes have become one of the most vital nutritional discoveries since vitamins and minerals. **All processes of life depend on enzymes.** Where there are no enzymes, there is no life.

The body requires enzymes to properly use the nutrients provided in food and supplementation to support health.\* If they are not present, many vital nutrients are unusable. Many body imbalances are caused by a lack of enzymes.

A wealth of enzymes is an additional assurance your body will function at its best with vibrant energy, comfortable digestion and a healthy immune system.\*

ID # 17004
