

LUNG & SINUS HEALTH

ADVANCED RESPIRATORY NUTRACEUTICAL

The **Eniva Lung & Sinus Health nutraceutical** is a science-based product combining specialized ingredients to support **lung, respiratory and sinus health**. Formulated to address five key areas impacting respiratory function, its full spectrum design has broad application for those needing lung and airway support.* **Special emphasis has been placed on factors that directly impact lung and nasal function and response to cellular or environmental stress.** Formulated by a medical doctor dedicated to evidence-based formulation, the design of Eniva's lung & sinus health product places it in a class all by itself.

Lung & Sinus Health Formula Supports:

- **Healthy lung and sinus response** to airway irritation & stress*
- **Lung & sinus cellular integrity & immune function***
- **Healthy cellular replication** of lung and nasal tissue*
- **Lung detoxification pathways & antioxidant response***
- **Healthy lung oxygenation & circulation***

LUNG & SINUS STRESS

Respiratory organs and tissue can become stressed from environmental irritants (such as pollen) to more toxic substances (pollutants). This results in irritating symptoms of occasional cough, nasal discharge or congestion and airway discomfort. The formula has specific ingredients to help comfort and support important body processes for proper lung and nasal function.*

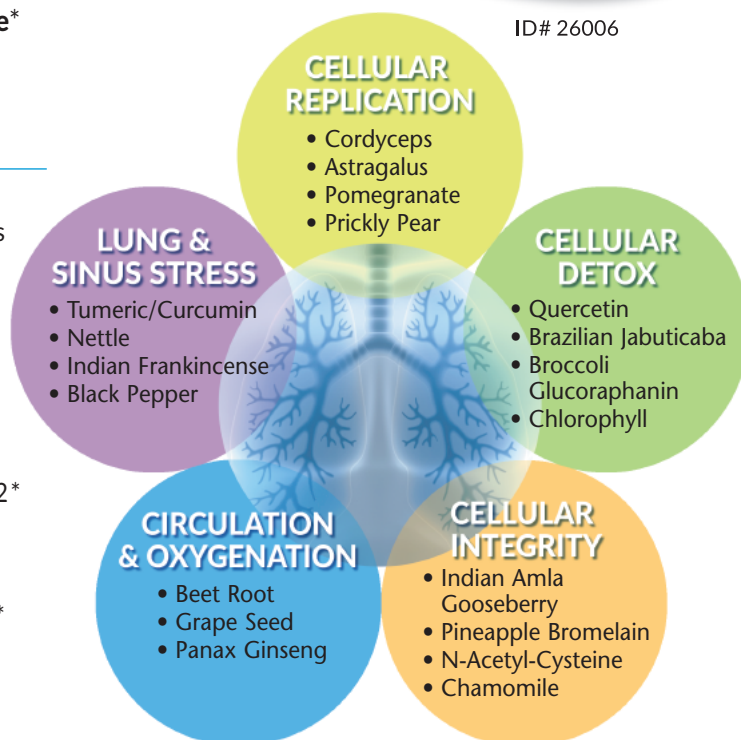

- **Tumeric** (*Curcuma longa*, root) – Lung Stress Response Pathway 1*
- **Nettle** (*Urtica dioica*, leaf) – Lung Stress Response Pathway 2*
- **Indian Frankincense** (*Boswellia serrata*, resin) – Lung Stress Response Pathway 3*
- **Black Pepper** (*Piper nigrum*, fruit) – Bio-availability support*

Warning: Do not take turmeric/curcumin if pregnant/nursing, or if you have a history of gallstones/bile duct obstruction. Consult with physician before using if taking medication which may affect the ability of blood to clot, or if you are planning to have surgery.

*High Potency
Respiratory Formula*

ID# 26006

HEALTHY CELLULAR REPLICATION

The **Eniva Lung & Sinus Health** formula contains several ingredients which work through different mechanisms to support normal cellular replication pathways.

- **Organic Cordyceps**
- **Pomegranate**
- **Organic Astragalus**
- **Prickly Pear**

DETOXIFICATION PATHWAYS AND ANTIOXIDANT SUPPORT

Exposure to toxic pollutants, environmental stressors, tobacco smoke and even ingested substances can lead to free radical damage. The **Eniva Lung & Sinus Health** formula contains scientifically tested ingredients shown to support the body's own detoxification pathways while also providing antioxidant support to address free radical damage. Specifically, it supports the body's own Phase II Detoxification Enzyme System to help cells. This system seeks to combat oxidative stressors and address environmental toxins. It also supports cellular antioxidant defenses and healthy organ function.

- **Quercetin**
- **Broccoli Glucoraphanin**
- **Brazilian Jabuticaba**
- **Chlorophyll**

CELLULAR INTEGRITY AND IMMUNE FUNCTION

Proper organ function, tissue integrity and immunity are key to supporting healthy respiratory function. Specific formulary ingredients included in this formula have been clinically researched to provide protease and antioxidant mechanisms to support lung and sinus health and overall immunity.

- **Organic Indian Amla Gooseberry**
- **N-Acetyl-Cysteine**
- **Pineapple Bromelain**
- **Chamomile**

CIRCULATION AND OXYGENATION

Delivery of nutrients to the lungs, as well as proper oxygenation and gas exchange, requires healthy circulation. Lung & Sinus Health contains beet root and Grape Seed Extract to support oxygenation and proper circulation. These substances also possess natural immune supporting properties, while blood vessel pressure is also supported through the Panax Ginseng Extract.†

- **Beet Root**
- **Panax Ginseng Extract**
- **Grape Seed Extract**

†Already in normal range.

LUNG & SINUS HEALTH

*Advanced Respiratory Formula
Vegetable Capsule
High Potency*

Supplement Facts		
Serving Size: 2 Capsules Servings Per Container: 60		
	Amount Per Serving	% DV*
Respiratory Health Proprietary Complex	850 mg	
Lung Stress Response Blend	255 mg	*
Turmeric (<i>Curcuma longa</i> , root) curcumin complex, Nettle (<i>Urtica dioica</i> , leaf) extract, Indian Frankincense (<i>Boswellia serrata</i> , resin) extract, Black Pepper (<i>Piper nigrum</i> , fruit)		
Lung Cellular Replication Blend	240 mg	*
Organic Cordyceps (<i>Cordyceps sinensis</i> , whole), Organic Astragalus (<i>Astragalus membranaceus</i> , root), Pomegranate (<i>Punica granatum</i> , fruit and seed, extract), Prickly Pear (<i>Opuntia dillenii</i> , stem), extract		
Antioxidant Lung Detox Blend	155 mg	*
Quercetin (<i>Sophora japonica</i> , flower buds) extract, Brazilian Jabuticaba (<i>Myrciaria cauliflora</i> , fruit pulp), Broccoli Glucoraphanin (<i>Brassica oleracea</i> , sprout and seed extract), Chlorophyll (sodium copper chlorophyllin)		
Cellular Integrity Immune Blend	100 mg	*
Organic Indian Amla Gooseberry (<i>Embilica officinalis</i> , fruit), Pineapple Bromelain (<i>Bromelia ananas</i> , fruit), N-Acetyl-Cysteine (NAC), Chamomile (<i>Matricaria recutita</i> , flower) extract		
Circulation Oxygenation Blend	100 mg	*
Organic Beet Root (<i>Beta vulgaris</i> , root), Grape Seed, (<i>Vitis vinifera</i> , seed) extract, Ginseng (<i>Panax ginseng</i> , whole plant) extract		
* Daily Values (DV) not established.		

Other Ingredients: Vegetable hypomellose capsule, microcrystalline cellulose, magnesium stearate, silicon dioxide.
