

VITAMIN D3

Sunshine in a Bottle

Vitamin D, known as the sunshine vitamin, is an essential nutrient that is identified as a "pro-hormone" in the body. It goes to work at the DNA level in supporting multiple body systems to promote health.*

Evidence is clear adults and children are not getting enough Vitamin D even if they live in a sunny climate. Health professionals strongly support supplementation. Eniva practices the finest in nutraceutical innovation for providing high potency Vitamin D3 in liquid form.

What Makes Eniva Vitamin D Different?

- A natural, high potency, liquid Vitamin D formulated by a medical doctor and nutritional expert. It contains "bio-identical" Vitamin D known as Vitamin D3.
- Liquid delivery system which enhances absorption, bioavailability and benefit to the body.*
- Great taste derived from natural flavors. There are no "questionable" artificial colors or flavors added.
- Highest quality standards: extensive heavy metal, pesticide, contaminant, microbial and active ingredient testing have been done according to strict quality guidelines.
- Manufactured in the USA at an FDA inspected state-of-the-art nutraceutical facility strictly compliant with US Federal Regulations (21 CFR) and strict manufacturing GMPs.
